

## REMARKS/ARGUMENTS

Pursuant to a teleconference with the Examiner regarding the Advisory Action, the Examiner indicated that the process Claims, i.e., 48-51 and 55-61 would be allowed upon cancellation of Claims 37-47, 53, 54, 62 and 74-77, composition/product by process claims. By this Amendment, the latter claims have been cancelled. Additionally, applicant has added a new Claim 78, which depends on either Claim 48 or 49 and which simply recites that the hydrothermal treatment is conducted at a temperature of between 220 and 260°C, and a partial water vapor pressure of between 16 and 25 bar<sub>abs</sub>.

Applicant reserves the right to file a continuation application directed to the cancelled claims.

In view of the foregoing amendments and remarks, it is respectfully submitted that Claims 48-51, 55-61 and 78 are in condition for allowance, which is hereby earnestly solicited and respectfully requested.

Respectfully submitted,

C. James Bushman
